# REBECCA EVERETT

## Aesthetics & Skin Specialist

TREATMENTS AT LOX  
THE DETAILS

With over 20 years experience in the beauty industry, Rebecca is trained to Level 4 Advanced Beauty, which includes laser and light treatments. She also holds a City & Guilds L4 teaching qualification allowing her to pass on her expertise. Always wanting to learn and keep up to date with new treatments, Rebecca trained in semi-permanent make up because she loves nothing more than transforming lives by creating beautiful bespoke brows to suit your face shape. She also loves tackling skin issues and concerns, which led to training in the more advanced aesthetics side of beauty, which involves skin needling, chemical peels, dermal fillers, anti-wrinkle injections, vitamin injections and more.

Rebecca is a true perfectionist and incredibly thorough, taking time with the treatments that she offers. It's never an in and out service with Rebecca. She spends time looking at the structure of your face, lips etc and aims to enhance what you already have.

### Semi-Permanent Make Up

Semi-permanent make-up is a complexion treatment to **enhance eyes, brows and lips to add definition to the face**. This technique involves injecting pigment through a fine vibrating needle into the most superficial layers of the skin. A local anaesthetic cream numbs the area pre-treatment.

Microblading uses extremely small blades/needles to make tiny, hair-like incisions right above the dermis layer of your skin while depositing pigment directly into those incisions. As a result, your brows will naturally fade over time and require touch-ups. To create the desired look, the pigment colour that best suits the natural brow tone is chosen to give the illusion of fuller, darker, groomed brows.

All Prices include top up after 4-6 weeks.  
\*Patch test is required at least 48 hours before treatment

### Lip Fillers

A type of injectable that adds volume to the lips, **creating a bigger, plumper pout**. They can also replace lost volume, smooth out wrinkles around the mouth area and create improved definition and shape.

# TREATMENTS AT LOX THE DETAILS

## Anti-wrinkle Injections

Anti-wrinkle injections relax the facial muscles, making wrinkles less visible. A full consultation is needed prior to treatment.

## BBGLOW Micro-needling

Micro-needling tinted serum into the skin achieves **glowing, radiant, even skin** tone for up to 4 months in 1-4 sessions. It stimulates natural collagen production and skin rejuvenation. The BBGLOW serum adds incredible nutrients and most importantly the colour you desire.

## Skin Rejuvenation Injections

**Profilo:** Revolutionary for skin rejuvenation, Profilo is in its own injectable category – bioremodeling. There are 5 injection points for your area of concern. They stimulate different types of collagen and elastin due to the slow release of hyaluronic acid. Results last between 6-12 months. 30 min procedure time. Results visible after 4-6 weeks.

**TKN HA3:** An injectable anti-ageing treatment made from hyaluronic acid for skin that is losing its elasticity and firmness with age. It can be used on the face, neck, décolleté, arms, hands and knees, or any part of your body where the skin shows visible signs of ageing.

## Dermaplaning

A simple, safe exfoliation and removal of peach fuzz (vellus hair)

- \* helps make up go on smoother
- \* better penetration of skincare products
  - \* prevents breakout and acne
- \* reduces the appearance of acne scarring
- \* reduces appearance of fine lines and wrinkles
  - \* promotes smoother more radiant skin
  - \* instant results, no down time

## Microdermabrasion Facial

MICRODERMABRASION is a cosmetic procedure that uses diamond tipped exfoliating machine heads and a vacuum to remove dead skin cells. It can be used on the face, neck, chest, back and hands. The aim is to reduce fine lines, minor scars, wrinkles and age spots, revealing **smoother, younger looking skin.**

# TREATMENTS AT LOX

THE DETAILS

## Derma Roller

Derma Roller is a treatment used for skin rejuvenation by stimulating our body's natural response to produce collagen and **repair and heal** itself.

This treatment is perfect for reducing surface scarring's, fine lines and for a brighter more even skin texture.

## LED Light Therapy

**Blue** light for acne and reduction of bacteria and inflammation

· **Red** light for collagen stimulation, helps to combat fine lines

· **Yellow** light for redness, helps soothe sensitive skin and rosacea

· **Green** light for pigmentation, helps to even out skin tone and reduce oil

· **Cyan** light to help calm and soothe swollen capillaries and relieve stressed skin

· **Purple** light to help cell regeneration and repairing

## Cryo-Pen Aesthetics

Cryo-pen is an advanced cryotherapy (freezing) innovation that is a fast, effective, safe solution for the **removal of imperfections**, including:

- Skin Tags · Warts · Verrucae · Melia
- Pigmentation, Sun Spots, Age Spots. · Cherry Angiomas

## Vitamin Injections

### Vitamin b12

- Promotes great skin and hair
- Helps weakness and muscle pain
  - Improves memory
  - Fights depression
- Avoids chronic fatigue
- Improves heart health
- Smooths the nervous system

### Vitamin C

- Supports a healthy immune system
  - Healthier, glowing skin
  - Increased energy
- Increased metabolism
  - Builds collagen
- Helps with joint pain
